WELCOME ADDRESS

Dear Colleagues,

On behalf of the ISoP Executive Committee and the Local Organizing Committee, it is our great pleasure to welcome you to our meeting and warmly encourage you to participate in our 22nd Annual Meeting on the beautiful island of Bali from 6-9 November 2023 (ISoP 2023). Those of you who have been members of our professional society for many years, will know we have organized an international meeting almost every year since 1992, when the International Society of Pharmacovigilance (ISoP) was founded as the European Society of Pharmacovigilance (ESOP). Since 2000, when ESOP became ISoP, our annual meeting have taken place in many interesting destinations around the world . This year is the first time we will be hosted by pharmacovigilance colleagues in Indonesia.

The theme of our meeting is Putting Patients First in Pharmacovigilance: International Perspectives from Global South. We are committed to ensuring our work in pharmacovigilance improves patient safety worldwide in a meaningful way. This is why the Scientific Committee for ISoP 2023 have placed the concerns of patients at the heart of our scientific meeting. We have invited members of the ISoP Special Interest Group (SIG) on Patient Engagement in Pharmacovigilance to host a plenary session and the Committee has encouraged other ISoP SIGs to plan parallel sessions which will fit with this year's theme of engaging patients in improving the safety of pharmaceutical products worldwide.

Please view the scientific programme for ISoP 2023 noting the option to attend one of our pre-conference courses taught by international experts. For the main conference, we invite you to consider submitting an abstract to fit with one of the many interesting and important sessions. These include clinical aspects of pharmacovigilance, ecopharmacovigilance, medical devices, women's medicines, vaccine pharmacovigilance and drug safety in older patients. There is also the opportunity to submit abstracts as poster presentations . When we meet in Bali, there will be the chance to share your work with an international audience and all accepted abstracts will be published in our official journal Drug Safety.

In conclusion, we invite you to take the opportunity to join us in Bali in November, to discuss the key issues in our field with other pharmacovigilance professionals from around the world. Whether this is your first or fifteenth ISoP annual meeting whether you are a student, professionals from pharma, a regulator or a world-leading academic, we know you will enjoy the 22nd Annual Meeting and social stimulation which will engage us in this wonderful tropical setting.

We look forward to welcoming you in Bali next November!

ABOUT ISoP BALI 2023

The theme of this year's meeting will be "Putting Patients First in Pharmacovigilance: International Perspective from Global South", highlighting ISoP's mission to promote research and to address emerging issues concerning drug safety.

Several challenges in the field of drug safety and regulation have to be faced in the near future. On the one hand, COVID-19 pandemic underlined the importance of pharmacovigilance activities and risk communication during health emergencies; on the other hand, in response to the increased availability of innovative therapeutic products (or therapies), such as advanced therapy medicinal products, digital therapeutics combination products and vaccines developed based on advanced technologies, pharmacovigilance continues to evolve to timely and adequately address emerging issues.

The application of artificial intelligence and machine learning in pharmacovigilance, the creation of database networks for postmarketing surveillance and signal detection through the analysis of real-world data are examples of the many evolving areas.

Promoting and extending research in the field of pharmacovigilance and encouraging Pharmacovigilance education at all levels are also key themes of ISoP 2023.

Pharmacovigilance and drug safety play a key role in healthcare worldwide. ISoP 2023 is the perfect forum to share few days with an excellent team of some of the world's leading experts in the field and to exchange experiences.

Why Bali ?

The expansion of the Meeting, Incentive, Conference, and Exhibition (MICE) industry in Indonesia especially at Bali and Jakarta deserve to be said as existing international competitive destinations. Bali also has successfully hosted a numerous of significant gatherings, including the G20 Summit.

It is also clarified by the result of ICCA research (International Congress & Convention Association) or ICCA World City Ranking year 2012 mentioned that Bali were rangked 48.

Bali has fullfilling all the standards of International MICE, namely as follows :

- **Accessibility**

Bali has “Gusti Ngurah Rai International Airport” that can be accessed by direct flights all over the world. Also port of Benoa and Gilimanuk.

- **Support by Stakeholder**

Bali has a lots of active organizations such as The Ministry of Tourism and Creative Economy, The Local Agency of Mitigation Disaster (BPBD) and Society of Indonesia Profesional Convention Organizer (SIPCO). Through institutions, visitors can access the security, other services, and information that the government, owners of tourist destinations, or non-governmental organizations give.

- **Interesting Destination**

Bali also has hundreds of tourist attractions, entertainment venues, national and international standard restaurants, shopping centers etc. Starting with the landscape of the mountains, the variety of flora and fauna, and the historical value remained.

- **Accommodation**

There are thousands of modest hotels and hundreds of hotels of the finest international level.

- **Facilities**

Bali is home to conference spaces that match international standards and have a capacity for more than 10,000 people. An exhibition venue that has international standards. Bali also has many money changer and police that spread all over the region.

- **Profesional Human Resources**

Bali has various players in the MICE industry: PCO, PEO, DMC, EO, Travel Agents, Freight forwarders, experienced MICE Entrepreneurs, Educational Institutions in the field of MICE and certified Human Resource.
